“The most significant change for me is understanding how well children with disabilities can be educated if their teachers receive the appropriate training.”

Teacher, project participant

Some key achievements:

- **51 braille readers** received refresher training.
- **22 participants** received sign language training – more than the original target of 20.
- **17 participants** attended a 10-day residential training course on producing and using assistive devices.
- **20 teachers** from 8 primary and secondary schools received 10 days’ foundational training on inclusive education.
- **57 assistive devices** were distributed to children and adults with disabilities.

Project description:
The Inclusive project successfully promoted social and employment inclusion for people with disabilities. Nearly 350 people benefited from vocational training or work placements, with 72% able to start earning afterwards. In other key outcomes, 27 local disability groups which took part are now represented on local decision-making committees, some councils are spending more on disability issues, and guidelines on inclusive strategies were developed.

Timeframe:
1 April 2013 – 31 March 2016

Implemented by:
Sightsavers, Bangladesh Visually Impaired People’s Society and Assistance for Blind Children.

Funded by:
The European Union

Entrepreneurial skills

“I am no longer dependent on anyone. Women seek suggestions from me now and acknowledge my work. I hope to expand my business in the future.”

Tahera, project participant

Some key achievements:

- **206 participants** received training in business planning, marketing and accounting.
- **80 people** received training in catering and bakery, packaging or duck rearing.
- **170 people** were trained in craftwork using bamboo, jute and hand-embroidery, as well as packaging skills.
- **20 educated young people** with disabilities received English language training to boost their reading, writing and communication skills.
- **5 people with disabilities** started their own business after receiving business training, setting up solar panels where no other electricity supply is available.

Strengthening local groups

“The most significant change in my life is to find myself talking about disability rights to different audiences, including at the district level. I feel proud when I get invited to meetings and am asked for my opinion.”

Bedon, project participant

Some key achievements:

- **90 people** were trained for: 2 days on human rights, 2 days on advocacy, 1 day on HIV/AIDS and 1 day on gender.

- **206 participants** among them self-help group members, family members and staff, received training in business planning, marketing and accounting.

- **23 participants** received training on disability, leadership and advocacy, the Disability Rights and Protection Act 2013, and gender – higher than the target of 15.

- **1 national level** policy dialogue meeting was held on representing people with disabilities in parliament and on local government bodies in Dhaka.

- **23 self-help group leaders** took part in a workshop on implementing a sustainability strategy for their groups.

“Now I know that, although I am a visually impaired woman, I am first a human being and I have the right to live a secure and peaceful life.”

Jahanara, project participant

Some key achievements:

- **23 people** received training on disability, leadership and advocacy, the Disability Rights and Protection Act 2013, and gender – higher than the target of 15.

- **90 people** were trained for: 2 days on human rights, 2 days on advocacy, 1 day on HIV/AIDS and 1 day on gender.

- **51,577 signatures** were collected demanding mandatory representation of people with disabilities on various committees, local authorities and other structures.

- **98 people** including government officials, district judges, representatives of self-help groups and disabled people’s organisations, and participants in the project took part in two seminars aimed at increasing the access to legal aid services for people with disabilities.

Empowering women

“I am proof that a woman with a disability can play a vital role in ensuring a peaceful community. It was one good training programme that enabled me to do that!”

Woman with physical disability, project participant

Some key achievements:

- **34 women** were trained for: 2 days on human rights, 2 days on advocacy, 1 day on HIV/AIDS and 1 day on gender.

- **66 women**, including self-help group members, family members and staff, received training in business planning, marketing and accounting.

- **102 women** were trained in craftwork using bamboo, jute and hand-embroidery, as well as packaging skills.

- **3 women** with visual impairment started their own business after receiving training, and now employ 3 non-disabled people to produce packaging for local sweet shops.
