On the USB you will find the following digital files:

- Accessibility standards
- Accessibility audit checklist with consent forms
- Accessibility audit training: PowerPoint
- Accessibility audit costing Excel template
- Accessibility audit report Word template

If any of the contents are missing from this pack, please contact Andrea Pregel: apregel@sightsavers.org

Permissions of use

The accessibility standards and audit pack is a toolkit designed and produced by Sightsavers to improve the accessibility of healthcare facilities in low- and middle-income settings.

Whether you are part of a government authority, a multilateral agency, a non-governmental organisation, a disabled people's organisation or any other institution working in the development sector, we encourage you to use this pack as part of your initiatives to improve the accessibility of healthcare infrastructure.

We think the toolkit can be useful beyond the health sector, so you are encouraged to try it out.

If you have any feedback, please get in touch. To share your thoughts on using or adapting the toolkit, or to explore collaboration opportunities, please contact Andrea Pregel (apregel@sightsavers.org). Together we can build more inclusive societies for all.

Fair use and copyright

This pack contains copyrighted material. The material is being made available for the benefits of using this toolkit and is distributed for non-profit research and development purposes only. No photograph contained in this pack may be copied, reproduced, republished, downloaded in isolation, posted, broadcast or transmitted in any way. Illustrations and diagrams can be reproduced and adapted for non-profit research, development and non-commercial purposes only.

The creative concept and product design of this pack, along with its unique accessibility features, belong to Sightsavers. Any use of or reference to the pack should be attributed to Sightsavers by way of the below citation.
